PROFILE

A mathematically driven professional with a background in actuarial science and experience in insurance operations, investment analysis, and process automation. Currently pursuing a Master's in Financial Mathematics at the University of Queensland to strengthen my analytical foundation and integrate data, finance, and systems thinking. While advancing my academic and career goals, I am also seeking a flexible part-time role in the catering or hospitality industry to reduce my family's financial burden during my studies.

WORK EXPERIENCE

iFAST Global Hub AI (Listed at SG - SGX:AIY)

Jan 24 - Aug 24

ePension Operation Team Member

- Leading efforts in the development and operation of the Hong Kong Government's eMPF platform, collaborating with PCCW (0008.HK) to transform the pension system into a fully digital eService.
- User Accepting Testing (UAT), ensuring platform quality by identifying and resolving defects and bugs in collaboration with PCCW's developers, while also focusing on enhancing the user experience.
- Collaborate with the director to enhance department efficiency by optimizing systematic workflows and automating repetitive tasks.

GrandPine Capital (Malaysia)

Sep 22 - Dec 22

Customer Service Specialist

- Guiding retail investors in understanding value investing concepts and offering problem-solving support.
- Develop automation script through Excel VBA to assist manager in mining, filtering, and tracking data.

Kim Gam Enterprise Pte Ltd (Singapore)
